Social and Emotional Development for Diverse Learners Lan Yang, Jiesi Guo, Ricci W. Fong, 2025-07-16 This book examines the needs psychological agents practices and interventions that are pertinent to developing social and

emotional competence among students with diverse needs in the 21st century. It attends to a range of contemporary developmental issues, strategies, and sociocultural contexts that have been much overlooked in the special and inclusive education arena by showcasing a series of empirical, meta-analytical, and review papers. While much has been written about various types of special educational needs, this book takes a broader view of the discipline by capturing topics that are not only related to students with special educational needs but also those related to twice exceptional students, left behind children of Chinese migrant parents, sexually diverse students, and students who are disadvantaged in various ways. It focuses on developing social and emotional well-being among diverse learners for the 21st century. Contemporary issues such as developing students' adaptability, addressing sexuality issues in school, promoting teachers' emotional well-being, nurturing talents, and supporting left behind children are challenges that researchers, educators, and policymakers have to attend to in the coming decades. This book offers valuable insights into addressing some of these key 21st-century challenges in special and inclusive education. Showcasing an Asian perspective, this book opens readers to empirical findings, issues, and practices beyond the Anglosphere. Taken together, this book is a valuable addition to readers' collections within the spectrum of practices and perspectives offered by scholars and practitioners from both Western and Asian contexts. This book serves as a helpful resource for researchers, educators, counselors, and policymakers who are interested in enhancing the social and emotional development of diverse learners.

Afrodescendants, Identity, and the Struggle for Development in the Americas Bernd Reiter, Kimberly Eison Simmons, 2012-04-01. Indigenous people and African descendants in Latin America and the Caribbean have long been affected by a social hierarchy established by elites through which some groups were racialized and others were normalized. Far from being racial paradises populated by an amalgamated cosmic race of mulattos and mestizos, Latin America and the Caribbean have long been sites of shifting exploitative strategies and ideologies ranging from scientific racism and eugenics to the more sophisticated official denial of racism and ethnic difference. This book, among the first to focus on African descendants in the region, brings together diverse reflections from scholars, activists, and funding agency representatives working to end racism and promote human rights in the Americas. By focusing on the ways racism inhibits agency among African descendants and the ways African descendant groups position themselves in order to overcome obstacles, this interdisciplinary book provides a multi-faceted analysis of one of the gravest contemporary problems in the Americas.

Unexpected Power Shareen Hertel, 2018-07-05 U.S. human rights advocacy has long focused on civil and political rights issues such as torture censorship and lack of democratic freedoms abroad In the 1990s a series of high profile anti sweatshop and fair trade campaigns shifted the spotlight to labor issues But as human rights activists in the United States and elsewhere take up the cause of economic exploitation they don't always agree on the nature of the problem or on what should be done to address it What is more they do not necessarily have the final say in many cases the focus of a campaign will shift when local activists make their voices heard or when the imported aims of nongovernmental organizations conflict with the goals of the people they intend to help Shareen Hertel explores the dramatic negotiations within cross border human rights campaigns Activists on the receiving end of such campaigns do much more than seek the help of powerful allies beyond their borders They often also challenge outsiders' understandings of basic human rights in some cases directly by blocking campaigns intended to help them and in other cases indirectly by employing backdoor moves aimed at more subtly introducing new human rights norms Hertel looks closely at struggles for human rights in two contexts Bangladesh where activists challenged the understanding of human rights central to an international campaign to prevent child labor in that country and Mexico where activists sought to broaden the scope of efforts to prevent

discrimination against pregnant workers in their country Hertel connects these unexpected challenges to a new wave of international advocacy and thereby illuminates democratic struggles in the new global economy *Convenio sobre eliminación de todas las formas de discriminación contra las mujeres* Paloma Durán y Lalaguna, 2023-12-05 Este trabajo tiene por finalidad mostrar el contenido del Convenio para la eliminación de todas las formas de discriminación contra las mujeres CEDAW por sus siglas en inglés aprobado por la Asamblea general de Naciones Unidas en 1979 así como del protocolo opcional al mismo aprobado en la misma sede 20 años más tarde El artículo 24 del Convenio establece que Los Estados Partes se comprometen a adoptar todas las medidas necesarias en el ámbito nacional para conseguir la plena realización de los derechos reconocidos en la presente Convención Para ello es necesario que todas las personas que trabajan en el ejercicio del Derecho así como quienes lo hacen en la judicatura la fiscalía y los gobiernos conozcan el contenido de la Convención y del protocolo Difundir y facilitar este conocimiento es lo que justifica la elaboración de este trabajo Analiza cada uno de los artículos de los instrumentos mencionados desgranando su contenido para facilitar su utilización en el ámbito del Derecho interno de cada Estado Junto a ello se ha tenido en cuenta el trabajo del Comité CEDAW Se han incluido también todas las recomendaciones generales aprobadas por el Comité del CEDAW que son hasta ahora 39 En ellas el Comité ha especificado el sentido de algunos de los artículos del Convenio lo que facilita su implementación e interpretación De este modo esta obra ofrece información sobre el contenido del Convenio CEDAW y de su protocolo opcional dando a conocer las recomendaciones aprobadas por el Comité para facilitar la implementación de las disposiciones legales en el Derecho interno de cada Estado Paloma Durán y Lalaguna

Programación didáctica LOMCE en Educación Física: guía para su realización y defensa José María Cañizares Márquez, Carmen Carbonero Celis, 2016-09-14 Esta Guía se ajusta a las normas emanadas de la Convocatoria de Andalucía 2015 sin que sepamos si las siguientes llevarán o no esta línea de exigencia dadas las circunstancias político sociales En cualquier caso debemos regirnos por los documentos normativos en vigor Hemos optado por realizar esta Guía siguiendo la nueva legislación que emana de la Ley Orgánica de Educación 2006 de 3 de mayo de Educación L.O.E modificada parcialmente por la LOMCE 2013 En cualquier caso quienes nos leen tendrán que adaptarla a las características de su Convocatoria y a la legislación de la Comunidad Autónoma donde se presente Una persona opositora sin experiencia en la preparación posiblemente se agobiará ante el reto que le supone hacer una Programación imaginaria utópica a partir de un contexto muchas veces inexistente y donde aplicar unos objetivos contenidos etc totalmente teóricos Se

suele acudir a un centro escolar a consultar el Plan de Centro terminología de Andalucía Posiblemente la confusión sea mayor porque estar realizada sin tener en cuenta las características que nos pide la Convocatoria en cuanto a extensión descriptores etc A veces se termina por comprar o pedir prestada una programación que tuvo éxito en una convocatoria anterior o por presentar la estandar que dan en una academia El problema es que ese trabajo sea ya conocido y circulen muchas copias además de desconocer su lógica interna sobre todo a la hora de defenderla Eso es mucho esfuerzo y tiempo que nos ahorramos pero la originalidad es una característica indispensable para que un tribunal la tenga en cuenta a tenor de lo expresado por la última Convocatoria Esta Guía pretende ser un documento aclaratorio y vertebrador de la Programación Didáctica una ayuda para superar el proceso de Acceso a la Función Pública Ofrecemos herramientas y estrategias para que cada interesado la estructure personalice y extraiga el máximo provecho Para ello hemos dividido el trabajo en tres partes 1 Parte Tratamos todo lo concerniente a la Programación Didáctica estructura apartados y en cada uno de ellos muchas opciones de aplicación con ejemplos variados para que cada persona individualice su propuesta 2 Parte Hemos agrupado una serie de anexos que completa a la primera parte documentos de apoyo legislativos en su mayoría que amplían la oferta a la hora de personalizar la Programación Didáctica 3 Parte La hemos reservado para mostrar los métodos y criterios e indicadores de evaluación que suelen tener los tribunales además de una serie de consejos a tener en cuenta sobre todo de cara a su defensa Esto hace que nos orientemos mejor a la hora de prepararnos porque incluimos una serie de técnicas y esquemas novedosos que podemos utilizar incluso como guía si la convocatoria y los tribunales lo admiten así como consejos para destacar en la defensa oral de la Programación Ofrecemos una Guía que presenta muchas posibilidades de personalización por lo que va a constituir un trabajo original y propio con las ventajas que conlleva Sobre todo si el Tribunal nos hace determinadas preguntas sabremos salir airoso de las mismas porque para eso lo hemos trabajado
